AGENDA:

May at Mac Recap

- How did everyone think the webinars went?
 - Overall smooth and engaging
 - A great number of questions over both webinars (30-55 questions asked each webinar)
 - It was a good transition into online programming even for the first online May at Mac
 - Moderator and answering questions on the back end were helpful

- Is there anything you would like to see in the future?
 - More time for questions would be helpful
 - Maybe a longer overall webinar could be helpful
 - Recording it would be beneficial for later reference
 - Closed captioning would be helpful
 - Illustrating what questions are being asked
 - Maybe just a Faculty wide Q and A session would be good for first-years moving forward
 - Good for promotion for us and informative for first years
 - All exec team interested in involvement
 - Weekend time slot would be preferable or weekday after 5 pm
- Moving forward with social media presence
